Patient Education & Resources

Having a stoma is a big change in a person's life. How they deal with it depends on their situation, and the information and support they need may differ from what others need.

Dansac is pleased to provide patients with a range of educational resources that can help make life with a stoma better — before and after surgery, and as individuals get back into their regular routine.

Visit www.dansac.com.au/livingwithastoma to discover more.

- **Facts About Your Stoma**

Information on the different kinds of stomas, and on why someone may need stoma surgery.

- **Recovery After Stoma Surgery**

Learn what to expect after stoma surgery, and how to ease back into your day-to-day life.

- **Life With Your Stoma**

Tips that can help you take control of your new life and live well with a stoma.

- **Healthy Skin & Your Stoma**

Learn how keeping the skin around your stoma healthy can help enhance the quality of your life.

Ordering Made Easy

To order product samples or educational support material for your patients that are using Dansac product, visit our dedicated Dansac Nurse Portal.

Secure Start™ services

Personalised Patient Support

Support Throughout the Continuum of Care

We are proud to offer dedicated support for each and every patient we serve along the continuum of care. Dansac Secure Start services provide a lifetime of personalised support for our members.

Our team is focused on helping patients with:

- Finding the right product fit
- Increasing the confidence of patients managing their stoma
- Providing condition specific education
- And more!

Scan the QR
Code to enrol

Why Secure Start Services for Your Patients

Secure Start services helps patients – regardless of product brand they use – to get back to living life with confidence and security. We understand this is a process that takes time. That's why our no-cost, personalised service is available for the lifetime of their ostomy.

The right products

Based on your product recommendations, we help patients find the ostomy products that best fit their needs throughout the lifetime of their ostomy.

Ostomy Smart Education

Easy access to important care information and lifestyle resources that support the goal of maintaining healthy peristomal skin from the start.

The Enrolment Process

1.

Provide your patient with the enrolment and consent form to sign or scan the QR code on the previous page to enrol.

2.

Have them fill in as much information as they can. You can help guide this.

3.

Send the form back to priority@dansac.com.au. You can either take a photo or scan and attach to the email.

4.

After enrolment, our Secure Start Associate will contact your patient to explain the service and check that they are feeling confident with their next steps.

5.

They then check-in with the patient regularly to offer ongoing personalised support. We will also email you anytime we have updates on your patients.

If you have ticked the box on the enrolment form, we will also email you any time we have updates on your patient.

or visit www.dansac.com.au**

Characteristics of Convex Skin Barriers and Clinical Application: Results of an International Consensus Panel

McNichol, L, Cobb, T, Depaifve, Y, Quigley, M, Smitka, K & Gray, M 2021, 'Characteristics of Convex Skin Barriers and Clinical Application- Results of an International Consensus Panel' - *Journal Wound Ostomy Continence Nursing*, 48(6): 524-532.

Method: Consensus from 12 nurses with extensive experience in ostomy care

Results: Five convex skin barrier characteristics and 16 clinical application statements reached

Conclusion: Standard definitions to help clinicians select the right convex barrier based on assessment criteria for better patient outcomes

Read the full consensus results by scanning the QR code below

SCAN ME

5 Characteristics of Convexity

Depth

Depth of the convex skin barrier is defined as the measurement from the apex of the dome to the base.

Compressibility

Compressibility is the capacity of the convex dome to be displaced or flattened.

Flexibility

Flexibility is how easily the convex skin barrier can bend.

Tension Location

Tension location is the position in which the convex dome exerts downward and outward forces on the peristomal topography.

Slope

Slope is the angle from the base of the convex skin barrier to the apex of the dome.

Want to know more about convexity?

Call your local Dansac specialist to book a **Convexity Pop-up Studio** for a hands-on experience to support the use of convexity and skin health for your patients.

NovaLife TRE Ostomy Barriers
Help keep your patients'
skin at peace

Darren, Ulcerative Colitis Champion

NovaLife TRE ostomy barriers are designed to help you take care of your patients' peristomal skin health

- Stays in place, yet easy to remove
- Designed to absorb stoma output and perspiration to protect the skin
- Designed to help protect the skin from digestive enzymes by maintaining the right pH level of the skin
- Available in flat, soft and firm convexity

Really it's about feeling comfortable in your own skin

Find out how you can help minimise skin complications for your patients with **NovaLife TRE** skin barriers - visit www.dansac.com.au

Stoma
Skin
Soul

“Knowing I was getting the opportunity to stay alive and raise my 3 children outweigh anything else that could be negatively associated with having a stoma.”

Amanda, Stoma Advocate

NovaLife TRE High Output Pouches (coming mid 2025)

A Clinical Guide to TRE Technology

One of the biggest challenges in stoma care is maintaining healthy peristomal skin and keeping it free from irritation.

The NovaLife TRE™ barrier helps keep your patients' skin at peace. TRE technology is designed with three levels of protection that all work together to help keep skin naturally healthy.

The **adhesion capabilities** of the TRE barrier are designed to provide a secure, flexible seal to help protect the skin from stoma output, while being easy to remove and gentle to skin.

- Designed to have a high tack surface to provide secure adhesion
- Designed to be flexible to allow for natural body movements

See how the flexible TRE barrier has allowed for natural body movements and has conformed to the contours of the peristomal skin.

The **absorption capabilities** of the TRE barrier help absorb excess moisture to maintain skin's natural balance, without losing internal or external strength.

- Contains super absorbers which are designed to absorb and lock in moisture
- Designed to absorb stoma output and perspiration
- Designed to withstand erosion whilst still maintaining physical integrity

See how the barrier has swollen around the base of the stoma. The colour change seen on this barrier are signs of moisture absorption.

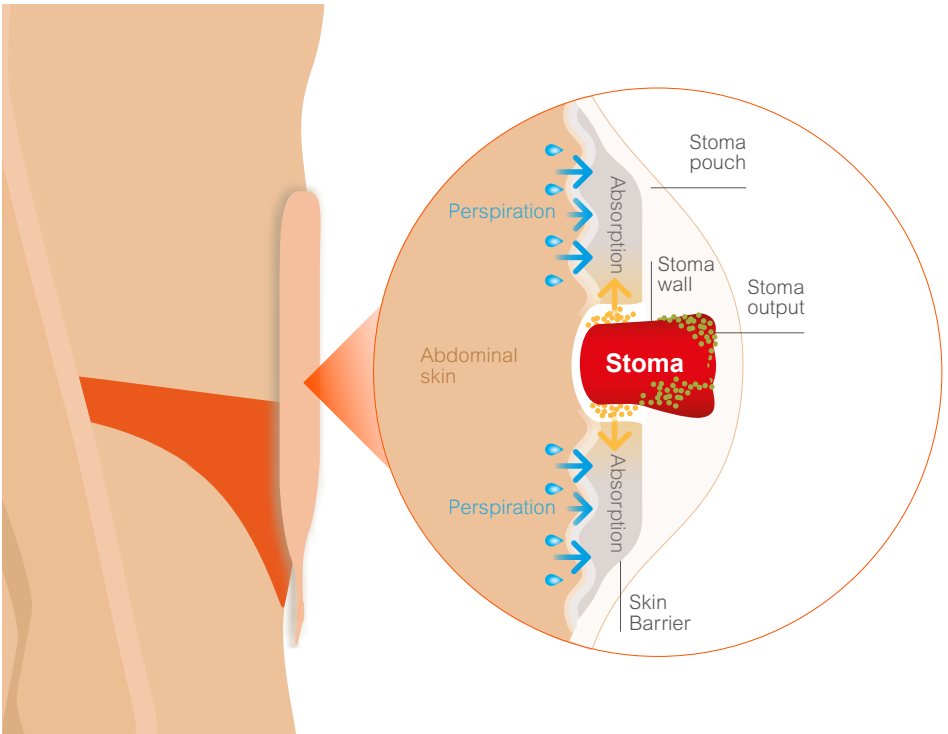

The TRE barrier changes colour when moisture is absorbed. See in this example how the barrier remains intact.

The TRE barrier will swell in areas of high moisture due to absorption capabilities in the formulation.

The appearance of swelling around the aperture of the pouch indicates how it has removed excess moisture from a patient's peristomal skin.

See how the TRE barrier absorbs moisture to provide a snug fit around the stoma.

pH pH

▲

pH Balance

Skin is naturally acidic and has a pH of 4-6. The pH balancing capabilities of the TRE barrier are designed to help protect the skin from stoma output, by maintaining the natural pH level of the skin.

The acid mantle¹ is an acidic film on the surface of the skin which acts as a barrier to bacteria, fungi and other contaminants.

Urine, faeces and even perspiration are a number of factors which may increase skin pH. A weakened acid mantle may lose its ability to serve as a protective barrier and skin may become more prone to damage and infection.²

When higher pH influences come into contact with the TRE technology, it helps buffer the pH to a more skin-friendly level. This may help reduce the risk of peristomal skin complications.

“The fact that I can pretty much do whatever I want to do... I still go swimming, I still play a lot of sport, I go to the gym, I can work without any issues. It has had a really positive experience on my life.”

**Darren,
Ulcerative Colitis Champion**

A gentle push
in the right
direction

Introducing the NovaLife TRE™ 2 Piece Soft convex barrier

Relax and take comfort in knowing NovaLife TRE Soft Convex barrier has the compressibility and gentle support your patients' need to keep their skin at peace.

- The 6mm soft convexity of the barrier helps push the stoma into the pouch and even out peristomal skin.
- 2 piece systems can allow for greater versatility, as the pouches can be swapped without having to change the skin barrier every time. Convenient to click on and off.

Providing gentle pressure to enable a secure seal where it's needed, across all body types and stomas.

**Call 1800 880 840 to order a sample,

Stoma
Skin
Soul

“I have a wonderful life and I've had a big attitude change to life. One of the things that I've learned is that life can end so quickly, and I thought my life was going to end. Since I've had this second chance, I've made every day a winner.”

Rob, Colostomy Legend

Designed to help keep
your skin naturally healthy

Amanda, Stoma Advocate

Dansac TRE seal

One seal. Three levels of protection

- Designed to provide a secure and flexible seal to help protect the skin from stoma output and to be easy to remove
- Helps absorb excess moisture without losing internal or external strength to help maintain skin's natural balance
- Helps maintain the pH balance of naturally healthy skin

Available in 5 mouldable sizes
to suit a range of stomas.

Really it's about feeling comfortable in your own skin

dansac O

Dansac products to be deleted from the **Stoma Appliance Scheme (SAS)** in 2025

The following products have served you and your patients well over the years. Due to low demand and the introduction of newer more advanced like products with enhanced features, we will be working towards removing these from the SAS schedule.

Existing users will be transitioned to the new equivalent improved products over the next 6-12 months. We look to you for support during this transition phase.

Below you will find the discontinued products with a suggested 'like' replacement product where possible.

Deletions from the SAS – March 2025

Terms and Conditions of Sale

LIBERTY MEDICAL PTY LTD TERMS AND CONDITIONS OF SALE

Unless otherwise agreed in writing, these terms and conditions (**Conditions**) govern all contracts for the sale of goods (**Goods**) by Liberty Medical Pty Limited (ABN 36 072 817 755) (**Company**) to the customer (**Customer**). All other terms and conditions, express or implied, are excluded to the fullest extent permitted by law, including any terms and conditions in the Customer's order for Goods (**Order**).

1. Quotations, Orders and creation of Contract

Any quotation from Company to Customer is submitted on a confidential basis and is an invitation to treat only, not a contractual offer. Company may, in its absolute discretion, reject any Order or accept any Order in whole or in part.

All orders are subject to acceptance of Liberty Medical and Conditions of Sale. Liberty Medical shall not be liable for any failure to perform the contract of supply of any materials or for any delay or non-delivery due to strikes, fires, explosions, flood, riot, lockouts, injunction, interruption of transportation, accidents, inability to obtain supplies at reasonable prices, war or apprehension of war, force majeure, government action, or any other circumstances beyond Liberty Medical's control.

Liberty Medical reserves the rights to request a minimum order value of \$300 per order. All orders less than \$300 will attract a standard freight charge of \$27.50 + GST.

A contract for the sale of Goods (Contract) will be formed, in accordance with the Order and these Conditions, when Company commences the necessary actions on its part to supply the Goods ordered by Customer.

2. Prices

Goods are invoiced in accordance with the relevant quotation or agreement between Company and Customer, or else from Company's price lists current at the date of delivery.

Prices are quoted exclusive of GST and Customer agrees to pay GST in accordance with the tax invoice.

Liberty Medical endeavours to advise the trade of fluctuations in prices, however all prices are subject to change without notice by Liberty Medical.

3. Payment

Unless otherwise agreed in writing, payment for Goods is due within 30 days of the end of the month in which an invoice is issued without deduction or set off. All payments are to be made in cash, by cheque, credit card or direct deposit into the account notified by Liberty Medical. Failure to pay an amount on the due date entitles Company to, without prejudice to any other remedy, suspend delivery of an Order or cancel any Contract. Customer will be liable for all costs and expenses incurred by Company in obtaining (or attempting to obtain) a remedy for any failure by Customer to pay on the due date.

4. Revision of Terms of Payment

If Liberty Medical at any time considers that conditions do not warrant delivery of the goods on the terms of payment stated herein, Liberty Medical reserves the right to change the term of payment and/or require payment as a prerequisite of delivery and will notify the customer accordingly.

5. Handling

Liberty Medical will select the mode and rate for transport of goods. When special handling/order is requested the Customer will be charged the additional premium freight service, the cost of the special service will be added to the invoice.

6. Risk and delivery

Risk in the Goods will pass to Customer upon delivery. Delivery or dispatch dates are given or accepted by Company in good faith, but not guaranteed unless stated to be "guaranteed" in writing. Company will not be liable for any claim for loss or damages if Company is delayed or prevented from delivering goods for any reason.

7. Title

- a) Property in the goods shall remain with the Company and the Company has clear title to the goods until such time as:
 - (i) full payment is made for all amounts owing by the Customer to the Company so that the Customer's total indebtedness to the Company under these Conditions of Sale is discharged: or
 - (ii) the Customer sells the goods to his customers in the ordinary course of their business.

- b) If the Customer fails to pay any amount of the Customer's indebtedness to the Company under these Conditions of Sale when it is due to the Company or, an event of default as specified in subsection (d) hereof occurs, the Company may withhold notice and without prejudice to any of its other rights and remedies, recover and/or resell the goods or any of them and may enter upon the Customers premises by its servants or agents for that purpose.
- c) Until full payment the Customer shall store the goods in a way that clearly manifests the Company's title.
- d) Notwithstanding the provisions of these Conditions of Sale payment shall become due immediately upon the Customer committing any act of bankruptcy or the Customer (being a company) committing any act which entitles any person to apply to wind up the Customer, or a Receiver or Receiver and Manager of the Customer is appointed.
- e) The Customer acknowledges that until his total indebtedness under these Conditions of Sale to the Company is discharged he holds the good as bailee of the Company and that a fiduciary relationship exists between them.
- f) In the event of sale of goods to his customers, the Customer in his position as fiduciary shall:
 - (i) assign to the Company the benefit of any claim against a customer, and
 - (ii) account fully to the Company for the proceeds of the sale (unless and until the Customer's total indebtedness to the Company under these Conditions of Sale is discharged).
- g) Until ownership passes to Customer, the Customer:
 - (i) must insure the Goods against all usual risks to full replacement value and hold on trust for Company any insurance monies received for the Goods,
 - (ii) must keep the Goods separate and clearly identified as Company's property,
 - (iii) may sell or otherwise dispose of the Goods in the ordinary course of business, provided Customer holds any proceeds on trust for Company.

8. Returned of Goods

Liberty Medical will accept returns of certain merchandise from the Customer under the following conditions:

- a) All returns must be arranged by Liberty Medical Customer Service Department and a RGA number will be provided. Goods sent without approval will not be accepted and will be re-directed back without issue of credit, at Customer's expense.
- b) Returns must be made within 14 days from the invoice date.
- c) Only full boxes of Goods will be accepted for credit.
- d) Goods accepted for credit where there has been no fault on the part of Liberty Medical, will be charged a re-stocking fee of \$25.00 or 25% of the total value of the returned Goods (whichever is the higher).
- e) Any returned Goods must have an adequate shelf life, require no repackaging and are in an 'as-new' saleable condition. Damaged Goods will not be accepted and will be re-directed back without issue of credit, at Customer's expense.
- f) Freight for goods returned due to Customer's error will be at the Customer's expense.

9. Non-Returnable Merchandise

- a) Sterile Products (except as a result of the Company's shipping error), or by arrangement.
- b) Discontinued items.

10. Product Liability

The product liability of Liberty Medical in relation to any occurrence shall never exceed the limit of Liberty Medical's current product liability insurance.

11. Limitation of Liability

Liberty Medical's liability for any claim whatsoever in respect of products sold hereunder shall not in any case exceed the price of the product in respect to which the claim is made and Customer assumes all risks and liability for the products purchased from Liberty Medical and their use upon and after delivery

including their effect upon any person.

Any and all warranties or conditions express, implied or statutory are excluded except those which cannot be lawfully excluded.

12. Performance

Customer acknowledges, (a) it has relied on its own enquiries concerning the performance of Goods and not on any information, services or recommendation given by Company, and (b) that all descriptive specifications, data, dimensions and weights provided by Company or otherwise contained in Company's catalogues, price lists or other advertising material are approximate only and shall not form part of the contractual description of the Goods unless agreed to in writing by Company, in which case such specifications shall be subject to recognised trade tolerances.

13. Claims

Customer must inspect the Goods upon delivery to ensure the Goods have been delivered in full, are in good working order and free from damage and defects. Any claim by Customer of Goods damaged, lost in transit or short delivered must be made in writing to Company within 7 days of delivery (and must quote the invoice number). Customer must give notice of any defect in the Goods within 7 days of learning of the defect. All Goods that are alleged to be defective must be returned by Customer to Company, if requested, by Company's nominated carrier. Customer will bear the freight cost for the return of Goods which are found not to be defective.

14. Disclaimer

To the extent permitted by law, Company (and its officers, directors, employees, agents or successors) will not be liable for any loss, damage or expense sustained or incurred by Customer or any other party in consequence of or resulting directly or indirectly out of the supply of Goods by Company, the use or receipt of Goods, any breach by Company of any Contract, or the negligence of Company. It is understood that Customer will test and use the Goods as they are intended to be used according to the practices standard in the industry and in strict compliance with all applicable laws and regulations.

Without limiting the generality of the above, Company will not, in any circumstances (including any fault or negligence of Company), be liable for any indirect or consequential losses (including loss of goodwill, business or anticipated savings), loss of profits or use, any rectification costs or any third party claims in connection with Goods or a Contract.

15. Confidentiality

Customer acknowledges that the price of Goods set out in any quotation or Contract, any variation of the payment terms set out in clause 3 and any special conditions agreed in writing between Company and Customer are Confidential Information of Company. Customer may not disclose or otherwise make available such Confidential Information other than to their own employees involved in the Contract, except with Company's prior written consent.

16. Governing Law

Each Contract is governed by the laws of Victoria, Australia and both parties submit to the non-exclusive jurisdiction of the courts of that State.
